Dear Mike,

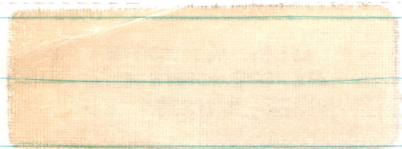

Enclosed is a SASE so you can send me a certificate or confirmation of our contact 4-10-81. I was talking with my Icom 2AT from my car into a local repeater (output at 147.945 W6EZI), with my friend Al, WB6RGF, holding the speaker of his Icom 2AT to the mic. of his Kenwood TS-130. We therefore were talking via a 2-meter link. It was very nice making your acquaintance in this unusual manner.
